

**Recycle Leaves and other Organic Waste:**

This is a reminder that throughout the fall, from September 23 through December 20, leaves are a mandated recyclable, and all municipalities should make arrangements to insure the separate collection of yard waste from the garbage.

In the Village of Mamaroneck Leaves must be bagged and left at the curb until October 28, 2011.

From November 1, 2011, through the end of the year, leaves should be raked to the curb into "wind-rows" that are half-on, half-off the street. Leaf piles shall not extend more than three feet (3') into the street, to avoid creating hazardous conditions for drivers.
